

# GROWTH GROUP

God's People Are Godly Citizens

Week of 7/5/2020

## Getting Started

What is the main problem with our country?

## Into the Word

Read **Jeremiah 29:4-11**.

What did you learn/gain from the sermon or appreciate about the sermon this week?

Jeremiah's assurance that the exile would eventually end must have brought comfort to the Jews in Babylon. How does God give us the same comfort?

Consider Jeremiah 29:11 in the context of the verses for this week (Jeremiah 29:4-11). Is verse 11 a verse you knew before? Did you know the context? Does your understanding of the promise of verse 11 differ in context?

What questions do you have from the sermon?

## Apply

What factors have led to you being here, meaning living in this area and being a part of this church?

How are you, or how have you been involved in your community? What are some opportunities for you to be involved more?

Do you have more of a tendency to condemn your community or to try to assimilate to it?

The Lord told the exiles in Babylon to pray for their community, even though they despised their community. Is there someone in your life, who you find it hard to pray for them, someone you're bitter about or angry at? Who in our community can we pray for together now?

After the sermon, are you left desiring any change in your life? Change in attitude? Any change in your community that you can help bring about while serving the community with love for God above all else?

## Around the Room

Share your highs and lows for the week.

## Pray
